**KANWAL:** I feel so lucky to have been blessed with the opportunity to attend your workshop. It has definitely lifted so many veils and helped me finally see HOW I can change my life and how to connect with Allah. You have shown me my Purpose! You are truly a man of God and your message is going to cause such a great revolution that will not only change the person, but in turn will change the whole world- Inshallah. The world needs people like you! May Allah grant you long life, good health and reward you with all the bounties of this world and hereafter.

**ABID:** Indeed, it was a pleasure meeting you and giving me an opportunity to know "WHO AM I ?" by joining your workshop. I am thankful to Allah who gave me hidaya and then to Bro. Abdul Hameed . Believe me Khan Saheb, I can see change in my life after the workshop. Pray for me that I continue and practice it till my last breath. I would say, it is a stepping stone for me to be happy in this life and Akhirah. May Allah bless you with good health and energy to keep up the work going for a long time.

**ABDULLAH:** As far as my experience is concerned, it was just something unique. As I have embraced Islam recently, for me, I can feel a huge difference. The time I embraced Islam itself, I had seen many positive transformations in myself, but after this great experience, in the workshop, specially his way of explaining things practically has inspired me a lot. I would like to thank the whole team of ‘Discover Yourself’. I feel myself to be the luckiest, and I am proud to be a Muslim. ‘Kudos’, to Mr Khan and his team. God bless you all.

**MOHSIN:** I was suffering with questions that I used to ask to myself about my past tragedy and consequently the future too. Finally after attending the workshop and meeting Sadathullah in person, I could come out of this pain that I was going through since one year. Jazakallah Khair.

**ANSARI:** I was the person who is short tempered. My mind was never free from tension and evil. But now my mind is empty and weightless and free of the past.

**TANWEER:** It was my fortune to have your guidance, which I received through your Workshop "Discover Yourself". It has tremendously changed my life. I was in my own belief that I am perfect and all my family members are happy with me. I realized what was missing in me. This workshop has shown me the right path, Inshallah, I will keep practise it.

**SAMA:** My family was very happy and it is the second time, I am attending the workshop. I have to refresh whatever I have been applying. I learnt to forgive everyone, being non-judgmental and have removed my ego. I learnt to control my anger which was my biggest drawback. I now recommit to keep my word. Recently, I lost the job and I am in some financial problems and the above reasons are valid enough to be sad, but I choose to be happy and accept my situation. I am concentrating on the blessings Allah has bestowed on us, our health, our children etc.

**YASIR:** Actually the workshop woke me up. I realized how egoistic I was, and was always comparing myself with others. I really thank him for showing me the correct path to reach my destination. .
